PROFESSIONAL SUMMARY

B.Sc. (Hons.) Microbiology student with hands-on laboratory experience in plasmid isolation, gel electrophoresis, and microbial analysis, combined with programming proficiency in Python, C, C++, Java, and SQL, and full-stack web development skills in React, Node.js, and TypeScript. Builds web applications, computational analysis tools, and secure algorithmic workflows that bridge biology and technology. Seeking internships and research opportunities in microbiology, bioinformatics, TechBio, forensic science, and cybersecurity.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java, SQL, JavaScript, TypeScript

Web Development: React, Node.js, HTML5, CSS3, Full-Stack Web Development

Cybersecurity: Threat Analysis, Cybersecurity Fundamentals, Network Security, Information Security

Bioinformatics & Laboratory: Bioinformatics, DNA Sequence Analysis, FASTA, Data Processing, Molecular Biology, Plasmid Isolation, Gel Electrophoresis, Microbial Analysis

Tools & Software: Git, GitHub, VS Code, MS Office, Tally

Core Competencies: Problem Solving, Teamwork, Content Creation, Audience Engagement

EDUCATION

Suri Vidyasagar College – B.Sc. (Hons.) in Microbiology **Aug 2023 – Aug 2027**

Rajeev Gandhi Computer Saksharta Mission – Master's Degree, Business/Office Automation & Data Entry **2022 – 2023**

Rampurhat High School – Higher Secondary (12th), Science **2021 – 2023**

Rampurhat High School – Matriculation (10th) **2021**

PROJECTS

DNA Sequence Analyzer | Python, Git, GitHub github.com/SamirWithCodes/dna-sequence-analyzer

- Built a command-line bioinformatics tool in pure Python that reads FASTA files and computes GC content, reverse complement, DNA-to-RNA transcription, and protein translation using the standard codon table.
- Implemented an Open Reading Frame (ORF) finder that scans three reading frames with a configurable minimum length; documented usage and sample output in the repository README.

EXPERIENCE

Social Media Marketing Intern – InAmigos Foundation (IAF), India **Sep 2025 – Oct 2025**

- Created and managed content across Instagram, Facebook, and LinkedIn to promote organizational campaigns, increasing audience engagement and brand visibility.
- Designed posts, captions, and stories to raise awareness for social causes and drive fundraising campaigns.
- Collaborated with a cross-functional team to plan, execute, and monitor campaign performance, recommending data-informed improvements to increase reach.
- Assisted in organizing online fundraising activities and promoting virtual events.
